U.S.A.

Dear Mr. Perungavoor:

In response to the Notice of Non Compliant mailed October 12, 2005, please amend our response from September 25, 2005 in the Claims listing as follows:

Claims:

1. **(Currently Amended)** A secure method for generating digital documents that are certified by a known authority, comprising the steps of:

 A. Programming an electronic device with a document issuing method that originates with the known authority, wherein the device further includes means for protecting the programmed method from tampering with;

 B. programming the electronic device with data identifying the owner of the device, and wherein the device includes means to prevent subsequent alterations of the owner identification data;

 C. reading a digital document into the device;

 D. physical identification of the owner of the device, based on the identifying data as programmed in step (B);

 E. ~~if the result of the identification process in step (D) is positive, this indicating that the true owner requested the document, then issuing of a digital document signed by the known authority, wherein the document is prepared according to the document issuing method that was programmed into the device in step A. Issuing of a digital document signed by the known authority, wherein the document is prepared~~
